play With me

play With me

OUR ROOTS

Ludattica® has developed at the heart of the Educational Group, an Italian company that is specialised in the creation of books for children, play books and high-quality educational games. Our roots are firmly anchored to Professor **Giuseppe Lisciani**, a highly experienced educationalist in the field of research and training in child learning strategies.

EDUCATIONAL VOCATION

Learning and the improvement of an individual's skills through recreational activities are the basis of the **Ludattica**® project. The firm belief that learning is a game, is a way of life that fills our thoughts and our hearts.

INSPIRING PEOPLE

Alessandra Lisciani's intuition and experience continues to give continuity to the foundations of the business. Her team looks after the design, the choice of materials and the realisation of Ludattica products. The principle, which provides daily inspiration, comes from the awareness that our products have a fundamental role in determining the future of our children, their curiosity and their desire for discovery.

play With me

PLAY WITH ME

Our games talk: they have been planned and designed to communicate with children and let them experience creative and unique recreational activities that are always different but always satisfying. At the same time the games encourage children to share the experience with others. "Play with me!" becomes and invitation for a friend, a parent, a grandparent and so on.

MADE IN ITALY

We are Italian artisans of games. We follow the whole process from conception to production, which takes place in Italy following meticulous safety standards. The uniqueness, exclusivity and tradition of our Made in Italy games can be found in every Ludattica product.

Our eco-friendly choices

● Playing with paper and cardboard

Creating, building, handling, transforming, inventing, growing. There is a whole world of paper and cardboard to discover! This is the guiding principle behind all our games made from eco-friendly, low environmental impact materials.

● Components of natural origin

We choose our components with care: we want them all to be natural, eco-friendly, non-toxic, and biodegradable. Some examples? 100% gluten free, vegetable origin modelling clay, dermatologically tested finger paints, non-toxic , washable ink pens, containers and accessories made from bamboo fibres and sugar canes that are compostable.

● Design sustainability. *made in Italy*

For us, being eco-friendly means making responsible design choices, which start with the planning phase of sustainable alternatives and follows the entire life cycle of our products. We don't like the idea of "throwaway" goods, and it is for this reason that our boxes are sturdy, and often are an integral part of the game itself. They last long, and can be used for a thousand other things!

● The advantages of a short supply chain

Manufacturing in Italy means that our company benefits from a short supply chain. We are able to check production processes and to manage packaging and transport processes carefully and responsibly. All of this with sustainability in mind.

LUDATTICA DUDÙ

23140 CREA DUDÙ

EN FR ES DE PL RO EL

Cut and paste my first ORIGAMI

The noble art of origami designed for the younger children. Making a very simple fold of the paper, the children can create 24 cute animals that become beautiful puppets to play with! In the box there are also scissors, glue and 8 additional sheets with lots of illustrated details to cut out and glue on the animals, to make them even more fun! A game that boosts concentration, fine motor skills, logic and imagination.

24 puppets,
each different, easy to fold!

CREA DUDÙ

22.5 x 22.5 x 7.5 cm

Age 3-5

Carton 3

CONTENTS

- 24 sheets of illustrated origami paper to fold 21x29,7cm
- 8 sheets of illustrated elements to cut out and paste
- Scissors
- Glue for paper
- Instructions

Giulia Maidecchi

CREA DUDÙ

 22.5 x 22.5 x 7.5 cm

 Age 3-5

 Carton 3

CONTENTS

- 8 "magic" scenes to decorate
- 12 sheets of tissue paper
- Sponge
- Basket
- Folder
-  Instructions

22686 CREA DUDÙ Magic collage

(IT) (EN) (FR) (ES) (DE) (RO) (EL)

A fun collage activity created especially for younger children: the child decorates the 8 animals by balling up tissue paper and sticking the colourful balls onto the images, without using glue. Simply moisten the paper with the supplied sponge and the balls will magically stick to the illustrations. An original toy kit that stimulates motor learning and creativity!

Deborah Valentino

22914 CREATIVE BLACKBOARDS

EN FR ES DE PL RO EL

Blackboards to stimulate the imagination!

By using these little blackboards, children can try out colouring with chalks and learn the rudiments of drawing. Each of the 9 boards is a different shape, to stimulate the imagination and creativity of young children.

CREA DUDÛ

 22.5 x 22.5 x 7.5 cm

 Age 3-5

 Carton 3

CONTENTS

- 9 double-sided blackboards in assorted shapes
- 6 coloured chalks
- Eraser
-  Instructions

CREA DUDÙ

 22.5 x 22.5 x 7.5 cm

 Age 2-5

 Carton 3

CONTENTS

- 4 cardboard pictures
- 13 cardboard shapes
- Set of 4 modelling clay colours

 Instructions

20354 CREA DUDÙ Play 3D • Modelling clay

A creative kit which you can play with your child, guiding him effectively in his first creative experimental steps in modelling clay. The game includes a set of high quality modelling clay with many shapes and cards in strong cardboard. The special guide offers useful advice for creating fun situations to share.

21535 CREA DUDÙ Let's Colour • Baby pens

A creative kit for stimulating imagination and encouraging children as young as 2 to approach the first fundamental elements of drawing and colouring with pens. Children will have fun tracing over patterns and doodles that recall the fur of the illustrated animals. This activity trains fine motor skills, develops observation and colour recognition skills as well as fostering creativity in little children.

8 057158 621535

made in italy

21528 CREA DUDÙ Let's Paint • Finger painting

A creative kit for experimenting with finger painting in a fun, safe way. The game includes 12 large, illustrated sheets and a set of high quality finger paints, suitable for children from 2 years. Children can experiment with colours by painting directly with their hands and decorating delicious plates that are already on the illustrated set tables!

WHAT IS AGENDA 2030?

In 2015, the member countries of the UN decided upon a development program **to improve the life of the planet and all its inhabitants**. This led to the creation of **Agenda 2030**, consisting of **17 Sustainable Development Goals** to be achieved by 2030. The goals cover many areas: the environment, people, the economy, and human rights.

They apply to everyone, all over the world, **no-one is excluded!**

This program does not resolve all our problems, but provides a basis for building a different kind of world.

WHAT IS LUDATTICA FOR AGENDA 2030?

A series of games designed **to make children aware of the issues** around **Sustainable Development** covered by Agenda 2030. It is aimed at preschool children and addresses topics such as the fight against climate change and protection of biodiversity, protection of the life and well-being of all living beings, the importance of collaboration in achieving these goals, and much more.

Each game is based on themes present in Agenda 2030, presented in a simple and fun way. The aim is to involve young children, and develop their awareness that **they are part of the change**, because...

NO-ONE IS TOO SMALL
TO CHANGE THE WORLD!

LUDATTICA FOR AGENDA 2030

-  Instructions

22945 BEE DANCE

• Build the beehive and...dance!

A cooperative game set in the wonderful world of bees, to learn to achieve a goal together, while having fun and caring for the environment. Children can take turns to draw a bee tile, mime it, and rebuild the hive with the help of the whole group! And if you draw the "BEE DANCE" tile, you need to be ready to dance like a bee!

Illustrations by **Valentina Bandera**

22952 ROUND AROUND RECYCLING

• Collect, recycle and transform!

Throw the dice and go around the whole city to free it from garbage! Playing with separate collection, you will discover the magic of recycling and, through to the large transformer bucket, you will convert waste into precious resources, thus completing the great puzzle of Recycling Park!

*convert waste into
precious resources*

22938 LET'S SAVE THE ANIMALS!

• Take endangered animals back home!

A group of endangered animals is hiding... and waiting for you to rescue them!

Once found, protect the animals and bring them back safely to their continent of origin, using the information on the identikit cards.

The mission will be accomplished when all the animals have gone back home (and whoever saves the most will be the winner of the game!)

22969 LET'S SAVE THE FOREST

• Trap the smog and help the trees grow!

An original board game, designed to raise awareness among children and encourage them to respect and protect the environment.

The challenge for the players is to trap all the smog in circulation, and to plant trees, flowers and bushes to help create a real forest and save the planet!

21740 LOST TREASURE

IT EN FR ES DE PT NL PL EL

An exciting game of concentration and speed for all the family. In order to find the lost treasure and win the game, you will have to hone your eyesight and quickly find the highest number of tokens by matching two identical images.

LAB & Craft

The Lab&Craft range of games has been conceived and designed to give children a scientific, creating, fun and stimulating experience.

The hands-on approach and the use of their senses allow children to put themselves to the test, express all their potential and explore the world around them by developing the interdisciplinary skills typical of the STEM-based approach featured in these new products. STEM (Science, Technology, Engineering and Mathematics) promotes the development of a set of essential interdisciplinary skills to understand the basic mechanisms of everyday life and of problem solving as intellectual, manual and creative skills are all involved at the same time.

The scientific element on which Lab&Craft's games are based allows children to learn through observation and discovery, and it stimulates their curiosity by raising doubts and questions.

The Lab&Craft range designed for the age range between 3 and 7 gives children and their educators the opportunity to have fun while discovering scientific topics from the perspective of a STEM-based approach.

22709 AIR MACHINES — I CAN BUILD, DECORATE, AND EXPERIMENT

Thanks to the force of air... the hedgehog zooms along on its wheels, the paper swallow flies high as a kite, and the ball stays suspended in the frog's large mouth! A game of decorating and building contraptions that work thanks to the force of air. Lots of experiences that introduce children to science through creativity and experimenting. Made in partnership with EXPLORA – ROME CHILDREN'S MUSEUM, it has a STEAM-based approach.

21993 MAGNETIC ART

A game that unites observation of the phenomenon of magnets – able to attract, drag and move objects – with an artistic and creative painting experience, giving shape to incredible and new paintings. The manual is full of fun facts and activities to make this game a real educational experience. Created in collaboration with EXPLORA – ROME CHILDREN'S MUSEUM, it was studied following the STEAM method.
